

**One phone call can help
you save on your energy
bill, improve curb appeal,
and your bottom line.**

**The PNM Multifamily Program could
save your community thousands.**

Business Energy Efficiency Programs

**Do you own or manage an
income-qualified community?**

We can help you offset the cost of upgrades to your community. With bonus incentives available for both in-unit and common areas, find the savings you need to brighten-up, cool down, and heat your community today.

Call 505-938-9400 or go online:
PNMEnergyEfficiency.com/Multifamily

Common area and in-unit incentives

Get incentives and energy savings with the installation of energy efficient LED lighting, LED fixture controls, AC systems, heat pumps, smart thermostats, pool pumps, motors, variable speed drives, window installation, and more with custom incentives available.

Why improve energy efficiency?

- It directly improves profitability by cutting operating costs.
- It distinguishes your property as an energy efficiency steward in the community.

- It qualifies your community for rebates that can cover portions of the upgrade cost.
- It improves the community curb appeal and overall safety, satisfaction, and comfort of your residents.
