

Distributor Discount Program

Instant, point-of-sale rebates on high-efficiency equipment

The Distributor Discount Program offers instant savings to eligible PNM customers for purchasing high-efficiency equipment from a participating distributor.

Qualifying Equipment

Receive instant discounts when purchasing qualified equipment from participating distributors. Qualifying equipment includes:

- Packaged Terminal Air Conditioners (PTAC)
- Packaged Terminal Heat Pumps (PTHP)
- Packaged and Split System AC Units
- Packaged and Split System Heat Pumps
- ENERGY STAR® Solid Door Reach-In Freezer
- ENERGY STAR® Solid Door Reach-In Refrigerator
- ENERGY STAR® Glass Door Reach-In Freezer
- ENERGY STAR® Glass Door Reach-In Refrigerator
- Energy Efficient Ice Machines
- ENERGY STAR® Combination Oven
- ENERGY STAR® Steam Cooker
- ENERGY STAR® Convection Oven
- ENERGY STAR® Commercial Vat Dryer
- ENERGY STAR® Hot Food Holding Cabinet

Authorized Distributors

PNM Authorized Distributors can provide instant discounts on qualified equipment at the time of purchase. View a list of Authorized Distributors by visiting [PNMenergyefficiency.com/findacontractor](https://pnmenergyefficiency.com/findacontractor).

PNM provides rebates for energy efficiency improvements.

Let us show you how.

Earn discounts for purchasing energy-efficient equipment.

HVAC Equipment			
EQUIPMENT TYPE	SIZE CATEGORY	INCENTIVE/TON	COOLING EFFICIENCY BONUS
Unitary and Split Air Conditioning Systems	< 65,000 Btu/h (< 5.4 tons)	\$25	\$15
	≥ 65,000 Btu/h and < 135,000 Btu/h (5.4-11.25 tons)		
	≥ 135,000 Btu/h and < 240,000 Btu/h (11.25-20 tons)		
	≥ 240,000 Btu/h and < 760,000 Btu/h (20-63 tons)		
	≥ 760,000 Btu/h (≥ 63 tons)		
Air Source Heat Pumps	< 65,000 Btu/h (< 5.4 tons)	\$40	\$15
	≥ 65,000 Btu/h and < 135,000 Btu/h (5.4-11.25 tons)		
	≥ 135,000 Btu/h and < 240,000 Btu/h (11.25-20 tons)		
	≥ 240,000 Btu/h and < 760,000 Btu/h (20-63 tons)		
Packaged Terminal AC	ALL	\$50	\$0
Packaged Terminal HP	ALL	\$100	

HVAC Incentive Example: A 15 ton Unitary Air Conditioning System with a IEER of 18 would receive: (15 tons * \$25 = \$375) for unit size AND (18 IEER - 15.6 IEER = 2.4 → 2.4 * \$15 = \$36 * 15 tons = \$540) for the cooling efficiency bonus. The total incentive would be \$375 + \$540 = \$915

ENERGY STAR® High Efficiency Ice Makers			
EQUIPMENT PRODUCTION TYPE	EQUIPMENT TYPE	HARVEST RATE (LB/24HR)	INCENTIVE PER 100LB/24HR
Batch	Ice Making Head	H < 300	
		301 ≤ H < 800	
		801 ≤ H < 1500	
		1500 ≤ H < 4000	
	Remote Condensing Unit	H < 988	
		989 ≤ H < 4000	
	Self Contained Unit	H < 110	
		111 ≤ H < 200	
		201 ≤ H < 4000	
Continuous	Ice Making Head	H < 310	
		311 ≤ H < 820	
		821 ≤ H < 4000	
	Remote Condensing Unit	H < 800	
		801 ≤ H < 4000	
	Self Contained Unit	H < 200	
		201 ≤ H < 700	
		701 ≤ H < 4000	

ENERGY STAR® Ovens & Fryers	
EQUIPMENT TYPE	INCENTIVE/UNIT
Combination Oven - Full Size	\$800
Convection Oven - Full Size < 5 pans	\$300
Convection Oven - Full size ≥ 5 pans	\$350
Convection Oven - Half Size	\$100
Commercial Vat Fryer - Standard	\$250
Commercial Vat Fryer - Large	\$300

ENERGY STAR® Electric Steam Cookers	
EQUIPMENT TYPE	INCENTIVE/UNIT
Boiler Based - 3 Pan	\$1,200
Boiler Based - 4 Pan	\$1,400
Boiler Based - 5 Pan	\$1,600
Boiler Based - ≥ 6 Pan	\$1,800
Steam Generator - 3 Pan	\$800
Steam Generator - 4 Pan	\$900
Steam Generator - 5 Pan	\$1,000
Steam Generator - ≥ 6 Pan	\$1,200

ENERGY STAR® Hot Food Holding Cabinet	
EQUIPMENT TYPE	INCENTIVE/UNIT
Half size	\$125
Three-quarter size	\$300
Full-size	\$500

Refrigeration	
Solid Door Refrigerator	\$2/cubic ft
Glass Door Refrigerator	\$2/cubic ft
Solid Door Freezer	\$6/cubic ft
Glass Door Freezer	\$8/cubic ft
