

# Retrofit Rebate Program

## Offset the cost of improving your facility

The Retrofit Rebate Program offers prescriptive and custom incentives to business customers for installing energy-efficient equipment in their existing facilities.

### Prescriptive Rebates

Earn rebates for installing qualifying equipment from a pre-set menu in existing buildings. Common retrofit measures include:

- Lighting and controls
- Heating, ventilation and air conditioning (HVAC) equipment
- Refrigeration and food service equipment
- Variable speed drives (VSDs) on HVAC motors
- Window film

### Custom Rebates

Earn rebates when reducing energy use with a system improvement that is not included in the prescriptive menu. Custom rebates are calculated using \$0.08 per estimated first year kilowatt hour (kWh) saved.

### Authorized Contractors

PNM Authorized Contractors can provide cost estimates, install equipment, and assist you with the application process. View a list of Authorized Contractors by visiting [PNMEnergyefficiency.com/findacontractor](https://PNMEnergyefficiency.com/findacontractor).
